

# JEANE RAMOS

Frontend Engineer

msjeanneramos@gmail.com | (954) 279-5295 | [jeane.dev](https://jeane.dev) | [github.com/jeanbeanie](https://github.com/jeanbeanie) | [linkedin.com/in/jeane-ramos](https://linkedin.com/in/jeane-ramos)

---

## SUMMARY

Self-taught frontend engineer with production experience across React/Redux and modern component architecture, plus full-stack range (Node/Express, PostgreSQL, Ruby on Rails). Returned to hands-on development in 2024 after several years away, and has since shipped and deployed multiple projects independently. Uses AI-assisted development tools deliberately, with critical review of every change and tests written alongside features, not after. Comfortable owning features end-to-end, writing tests, reviewing diffs critically, and mentoring junior developers.

## SKILLS

**Frontend:** React, Next.js, TypeScript, JavaScript (ES6+), Redux, Vite, Tailwind CSS, SASS/CSS, HTML5, AngularJS, Bootstrap, Foundation, Responsive & Accessible UI, Reusable Component Design

**Testing & Tooling:** Vitest, React Testing Library, Jest, GitHub Actions (CI/CD), Git/GitHub, ESLint, Webpack/Babel, Vim, Claude Code, GitHub Copilot, Jira/Pivotal

**Backend & Data:** Node.js, Express, REST APIs, PostgreSQL (transactions, defensive query design), MongoDB, MySQL, Ruby on Rails, PHP, Linux/Apache

**Design:** Figma-ready workflows, GIMP, Photoshop, Illustrator

## EXPERIENCE

### Independent — Frontend / Full-Stack Engineer — Self-Directed

June 2024 – Present

- Returned to active development after several years away and rebuilt technical skill set end-to-end, self-directing onto a modern stack (Next.js, Tailwind, Vite), while continuing to build on TypeScript experience from earlier roles.
- Built and deployed [YTCatchup](https://ytcatchup.com), a full-stack YouTube subscription app (React, Express, PostgreSQL, Google APIs) with a custom video player component, custom auth, a curated Lists feature, a round-robin feed-ordering algorithm, and a full automated test suite.
- Designed and deployed a personal engineering site ([jeane.dev](https://jeane.dev)) with a live project portfolio and technical blog.
- Integrated AI-assisted development tools into a disciplined workflow, with critical review of every change and tests written alongside features.
- Built and shipped several additional independent projects spanning web and game development, including a gamified productivity timer and a Steam Workshop mod with 150+ active subscribers.

### Frontend Developer — Floify

Feb 2021 – May 2021

- Built and maintained frontend UI features for a production web application using React, Redux, and TypeScript.
- Collaborated cross-functionally to implement designs and iterate quickly within a fast-moving product team.

### Frontend Engineer — CBS Interactive

Nov 2018 – Aug 2020

- Designed and implemented UI components for high-traffic consumer-facing products using React and TypeScript.
- Led the port of the Fantasy Sports app frontend from Perl/jQuery to React/Node, improving maintainability and performance.
- Wrote and maintained automated tests as part of the development workflow; reviewed pull requests daily and mentored junior developers on React patterns and best practices.

### JavaScript Developer — Maximus Live / Union Square Media

Jun 2018 – Oct 2018

- Designed, built, and tested new JavaScript components on a daily basis for client-facing sites.
- Reduced technical debt by refactoring major sections of legacy code; trained and onboarded new frontend developers.

### Full-Stack Developer — Independent Freelancer

2014 – 2017

- Built web applications end-to-end (Node.js, React, Ruby on Rails, WordPress/WooCommerce, MongoDB, MySQL) and configured/managed Linux servers for deployment.

## COMMUNITY LEADERSHIP

---

### Founder & Organizer, ReactJS Fort Lauderdale — *Meetup.com*

May 2019 – Nov 2020

- Founded and ran a local React meetup community; merged the group into the larger FloridaJS meetup in Nov 2020 and co-organized it with two other owners through early 2021.
- Planned and hosted a virtual community event on January 26, 2021 featuring **Dan Abramov** (React core team) as guest speaker.

## INTERESTS

---

Drawing monsters, cooking for friends, and getting lost in science fiction and fantasy worlds. Still logging hours in PC games between projects, of course.
